# ANALYSIS OF MANITOBA MOTOR TRUCK REGISTRATIONS

Year ending February 28, 1955

The following analysis of Manitoba Motor Truck registrations for the year ending Feb. 28, 1955, has been undertaken as an adjunct of the Manitoba Motor Transport Survey.

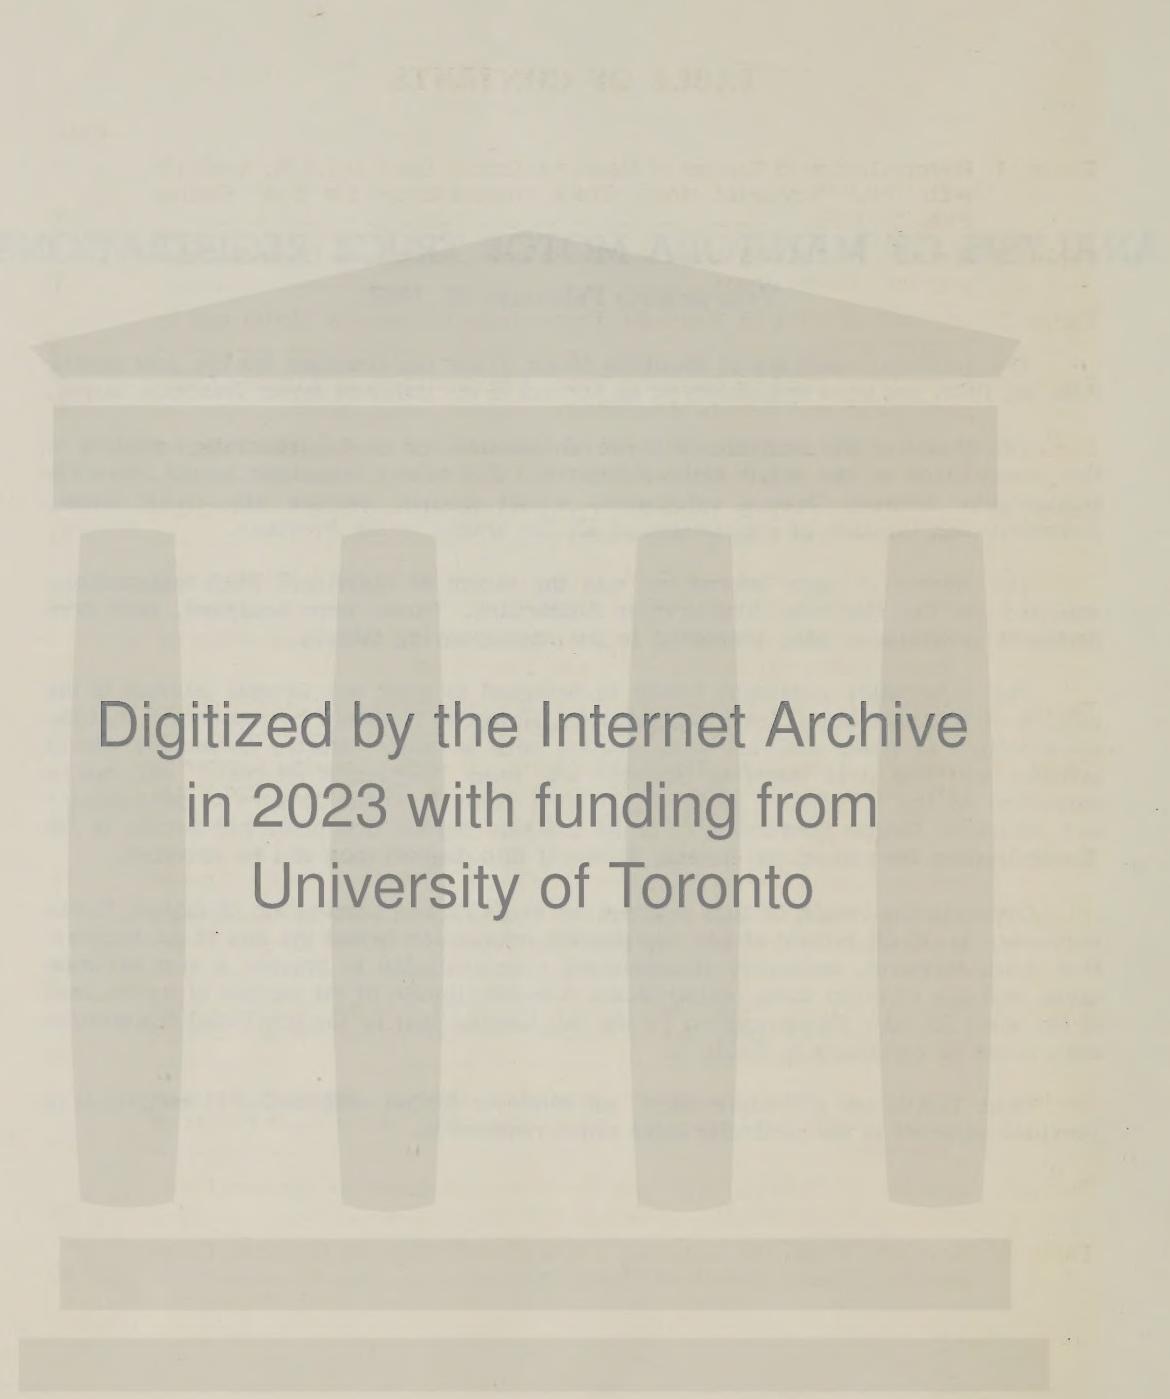

The object of the analysis is to provide needed and useful information relating to the composition of the motor truck population. The tables contained herein show the relationship between licence categories, weight groups, average age, make, model, ownership and location of registration of all the trucks in the Province.

The source of such information was the record of individual truck registrations supplied by the Manitoba Registration Authorities. These were analysed, with more pertinent information being presented in the accompanying tables.

The information published herein is designed to meet any general interest in the subject of Manitoba Motor Truck registrations. However, it should be recognized that the possibilities of cross analysis when dealing with so many variable factors are almost infinite, and that it is therefore possible that many "particular interests" will not be satisfied by the information provided. In such cases it would be wise to communicate any desire for further information or cross analysis beyond that published herein, to the Transportation Section of the Bureau, to see if this desired data can be provided.

Owing to the length of time required for analysis and preparation of tables, it was necessary to cut off receipt of new registration information before the end of the registration year. However, sufficient registrations were available to provide a very accurate cross analysis of motor truck registrations. A reconciliation of the number of trucks used in the analysis, with those reported for the full licence year by the provincial registration authorities is contained in Table 1.

Most Tables are self-explanatory, but wherever further explanation is needed, it is provided adjacent to the particular table which requires it.

## ANALYSIS OF MANITOBA MOTOR TRUCK REGISTRATIONS

7

TABLE 1. Reconciliation of Number of Manitoba Trucks Used in I.B.M. Analysis, with Total Provincial Motor Truck Registrations for Year Ending February 28/55

1. Total Provincial Registrations Year ending Feb. 28/55.	
"T" and "FT" .....	49,648
"PSV" .....	1,215
"CT" .....	2,349
Grand Total .....	53,212
2. Less Miscellaneous Registrations not Included in Analysis, such as Cranes, Diggers, Tow Trucks, Winches etc. ....	925
Sub Total .....	52,287
3. Less Registrations issued Jan. and Feb. 1954, of which, no record was received. (Note: In 1954-55 licence year, the licence year end in Manitoba changed from Dec. 31/53 to Feb. 28/55 the following year.) .....	431
Sub Total .....	51,856
4. Less Additional Registrations Received after Dec. 31/54 cut off date for I.B.M. Analysis and End of Licence Year .....	1,807
Sub Total .....	50,049
5. Less Additional Cranes, Diggers, Tow trucks etc. registered after Dec. 31/54; Plus otherwise unaccounted registrations	260
6. Equals No. of Trucks analysed in the accompanying tables .....	49,789

## Definitions

"T" Town trucks restricted to radius of 15 mi. of place of registration.

"FT" Farm trucks, not restricted as to area of operation.

"PSV" Public Service Vehicle — For Hire Operations anywhere in the Province in accordance with Operating Licence.

"CT" Commercial Trucks — Owner's own goods transported anywhere in Province.

TABLE 2. Summary of 1954-55 Manitoba Truck Registrations by Licence Category and Weight Group

Licence Category	Gross Vehicle Weight Groups						Total	Percent
	0 to 5,000 lbs. (0-2½ tons)	5,001 to 10,000 lbs. (2½-5 tons)	10,001 to 15,000 lbs. (5-7½ tons)	15,001 to 20,000 lbs. (7½-10 tons)	20,001 to 30,000 lbs. (10-15 tons)	30,001 lbs. and over (over 15 tons)

Note: In reference to table 6, it is pointed out that the above figures show the various years in which the trucks which are currently registered (1954-55) were manufactured. Thus for example although tractor-trailers manufactured before 1945 are very few in number, that is not to say that their use was as limited as current registrations for those years might suggest. The fact is that these vehicles are used intensively and tend therefore to be replaced oftener than other types. Consequently, their numbers are concentrated in current years.

## ANALYSIS OF MANITOBA MOTOR TRUCK REGISTRATIONS

Note. In reference to table 9 it is pointed out that the above figures show the various years in which trucks currently registered (1954-55) in each of gross vehicle weight groups, were manufactured. Thus the apparently increasing proportion of heavy trucks in recent years, is a reflection of the facts 1. that there has in fact been an increase in the number of large trucks in use, & 2. that since these trucks are replaced more often than small ones, their numbers to be concentrated in current years.

TABLE 12. Manitoba Truck Ownership 1954-55 Showing Number of Individuals and Companies Owning More than One Truck, in Various Licence Categories

No.	Licence Categories	Number of Trucks in Fleet										
		2	3	4	5	6	7	8	9	10	11	12
1 FT .....	2,026	420	139	36	26	14	11	2	1	3	1	
2 T .....	1,039	339	138	68	51	24	18	12	10	8	4	
3 PSV.....	113	42	18	9	9	4	1	2	3	3	1	
4 CT .....	137	33	29	16	6	6	5	3	1	2	1	
5 Total No. of Owners.....	3,315	834	324	129	92	48	35	19	15	16	7	
6 Total No. of Trucks Owned.....	6,630	2,502	1,296	645	552	336	280	171	150	176	84	

Note: In reference to tables 10, 11, 12, and 13, the total number of owners and trucks owned are not comparable from one table to the next. Naturally the more detailed the breakdown, the less likelihood there will be of finding trucks owned in fleets of two or more. For example if one owner has one truck in the 0-2½ ton range and one in the 2½-5 ton range, he is shown in table 10 as one owner under column 2 i.e. owning two trucks. However in table 11 where weights are broken down, he no longer appears in the table since he owns only one truck in each of two weight groups and there is no column for single owners.
